**Spring Edition** 

1990

MEDICAL LIBRARY ASSOCIATION 90th ANNUAL MEETING MAY 18-24, 1990 Detroit, Michigan

## CALL FOR VOLUNTEERS

MLA Local Arrangements Committee is seeking volunteers for the 1990 MLA Conference to be held in Detroit. A sign-up form was sent out in mid-February to the MHSLA membership. If you have not sent in your form and would like to participate, please return your form as soon as possible or contact Williams Gayle at Bi-County Hospital (313) 759-7345.

Volunteer job assignments include working at the hospitality desk, helping with CE courses, and working on facilities assistance during the Conference. Some time in April formal job assignments and work schedules will be finalized. Volunteers will also be information regarding parking and other pertinent instructions. Headquarters staff will volunteer orientation sessions at the Westin Hotel on May 15 or 16.

REPORT FROM THE DOCUMENT DELIVERY COMMITTEE ON INTERLIBRARY LOAN STATISTICS FOR 1988

Betty Marshall, Co-Chair Doris Blauet, Co-Chair

This newsletter contains the 1988 Interlibrary Loan Statistics reported by MHSLA libraries. Borrowing and Lending activities are reported separately and, as a point of interest, have been calculated as Docline activity and Total activity.

An alphabetic list of members submitting statistics and their data is also included. Those libraries that did not count specific data are indicated with a N/R in the data field.

Libraries should keep in mind the specific questions asked on the 1989 survey, so that 1990 statistics can be reported accurately.

Collection size data was reported in several different ways so the information was not useful for this report. The Committee would like to know how many current subscriptions your library has, including free subscriptions.

The age of the collection is also helpful. If your library was established in 1970, but the bulk of your subscriptions were started in 1980, then your collection is essentially 10 years old.

The 1989 Interlibrary Loan Statistics are due now, so please fill out the enclosed statistics form and return it to:

Betty Marshall Hackley Hospital Library 1700 Clinton Muskegon, MI 49442 Please have your statistics sent to Betty Marshall before June 30, 1990, so that they can be reported in the October issue of MHSLA News.

The 1988 and 1989 statistics will be compared to see percentage increase in services for each library for both lending and borrowing.

Members will be interested in Lea Ann McGaugh's article in the Bulletin of the Medical Library Association, 78(2) April 1990, on "The effect of DOCLINE on interlibrary loan volume and patterns among health sciences libraries in Michigan: preliminary analysis."

# computers in Libraries '90

A Review
5th Annual
Computers in Libraries '90
Crystal City, VA Mar 5-7 1990

Judith A. Barnes, Lansing General Hospital, Osteopathic

This year's conference finally addressed the concerns of the "Special Library". One entire track of the program was devoted to medical and law libraries. Looking at the Conference from a one-personlibrary perspective, however, I found the Conference still dealing with the larger library. Many of the speakers, although addressing the medical aspect of computers in libraries, were connected with universities or were institutions with over 800 beds. The Conference used to be called "Small Computers in Libraries." more appropriate title would "Small Computers in Libraries."

Still, the program was quite interesting. Highlights included CD-Rom products and services, Local Area Networks, the Library Macintosh, Expert Systems, Software Utilization & Training, Integrated Online Library Systems, Workstations, HyperCard (both for the IBM and the Apple/Mac), and Electronic Mail.

Yes, Virginia, there are HyperCard applications for the IBM. They are, however, not as visual as those for the Apple systems. From their presentations, I personally found them requiring more work in programming than database software.

Although several of the sessions dealt with use of generic software for library applications, only two discussed fully integrated systems. The sessions on the individual applications were quite interesting

and provided different perspectives of basic library tasks that could incorporated into my own system.

One of the most exciting papers dealt with the use of CD-Rom for a cooperative catalog among a large group of libraries in Northwestern New Jersey. The system was derived from OCLC records and includes a couple of colleges bringing the records to over one million on one CD.

This year's sessions were tape recorded. If you are interested in purchasing a copy of the conference proceedings or a list of available tapes, you may contact Meckler Conference Management at 11 Ferry Lane West, Westport, CT, 06880.

The exhibits this year were predominated by CD-Rom products and services. Library specific software vendors were also there. What were absent, were Fax applications, in spite of the new technology dealing with plain paper and laser printers.

All of the Medline on CD-Rom vendors were there to demonstrate their wares, along with some new products such as LC-MARC subject headings on CD.

As in the past, I found this Conference to be a wealth of ideas for future systems in my own library. I think it is perhaps one of the most fascinating that I have attended which deal with the library field.
