### **LONG MESSAGE**

#### **UPDATE: Ferris State University Power Outage (Jan. 13, 2014)**

As of 11:30 p.m., this evening (Jan. 13), power to the northeast area of the Ferris State University's Big Rapids campus remains out due to a failed transformer. A potential replacement transformer did not fix the issue. The University is currently exploring another option to bring the northeast region of campus back online by noon on Tuesday, Jan. 14.

As a result of the northeast campus power outage, morning classes in Alumni, Automotive and Prakken buildings are canceled. Classes will resume as scheduled beginning at 1 p.m. on Tuesday, Jan. 14. Day-shift employees working in Alumni, Automotive, Prakken and West buildings should not report to work until 1 p.m. unless otherwise directed by their supervisors. Any employees with questions about whether they should report are encouraged to contact their supervisors.

Power on west campus remains restored.

Updates will be posted on [www.ferris.edu](http://www.ferris.edu) as they become available.
