Archivist's Report
July 14, 2014

A webinar was held on June 19th with Mark Chaffee to offer some basic familiarization with the MHSLA Archives and determine if he would still be willing to take responsibility for moving current items from the MHSLA Board Wiki into the MHSLA Archives. Following this webinar, Mark still indicated willingness to submit new items to the archives.

A meeting was scheduled between myself and the Ferris State University Archivist, Melinda Isler, to update permissions and tweak some MHSLA Archives settings, but the meeting was cancelled because of schedule conflicts. A meeting with Melinda will be scheduled in the near future for some permissions and submissions updates.

Respectfully submitted,

Alison Konieczny
