IV. Other Business

After reviewing the Biology proposal, the committee agreed to an e-vote of the proposal provided all the concerns especially the assessment plans for student learning objectives are addressed and uploaded for members review. The chair will send out a call of e-vote once all the requested materials are submitted.

Don Brecken expressed his belief that E.I.O. should be informed and consulted on certain changes which may impact off-campus programs and courses offered at partner Community Colleges locations. He suggested adding Dean of E.I.O. to Form A for "changes which could potentially have adverse impact on programs offered off-campus in relationships with partner community colleges." In response, Kemi informed the committee that she had a conversation about the subject with Dean Clutchee and Dr. Teahan. She will provide details at the next meeting when she's back in town.

The meeting was adjourned until our next meeting on February 22, 2016 at noon.
