DOCLINE Training

Check the [MCR Calendar of Events](#) for more date details.

- Currently a collaborative project of the Greater Midwest Region, MidContinental Region, Middle Atlantic Region and Pacific Northwest Region.
- You DO NOT need to register for these classes.
- You DO NOT need a username or password.
- All of the DOCLINE classes are 60 minutes long.
- Each class qualifies participants to earn 1 Medical Library Association Continuing Education Credit. Information on obtaining this credit will be provided during the class session.
- To be fully engaged in the classes, each participant is urged to have access to a DOCLINE account. (All sessions have interactive exercises.) Be sure to have your DOCLINE user ID and password ready before you attend the class session.
- All classes are for beginning level DOCLINE users but all users are welcome to attend!

Beginning DOCLINE - This class covers the bare essentials of DOCLINE where participants will have an increased understanding of the basic features of DOCLINE. The instructor will give an overview of the layout of the DOCLINE window and will provide a brief description of some of the most commonly used features and their functions.

DOCLINE: Serial Holdings - This class will provide an in-depth look into DOCLINE's Serial Holdings. Participants will be provided with an introduction to the Serial Holdings database, how to add, remove, and update Holdings, how to run reports, and where to go to get additional Serial Holdings support.

DOCLINE Routing Tables - This class will provide an in-depth look into DOCLINE Routing Tables. Participants will learn about using their Borrowing Preferences, brief explanation of copyright compliance, editing Routing Tables, M/A/N Map, setting up Lending Options, and more!

DOCLINE Borrowing and Lending - This class will provide an in-depth look into DOCLINE Borrowing and Lending. Participants will learn about: using their Borrowing Preferences; the many ways to borrow; how to process request received; how to run and view reports; the different levels of requests (normal, rush, and urgent patient care) and more.
