Schult, Leah Monger, Lucian Leone, Matthew Olovson, Michael Ropele, Michael Cooper, Michael Bouthillier, Piram Prakasam, Randall Schroeder, Robert Buckingham, Ron McKean, Sharon George, Shelly VandePanne, Steven Reifert, Tami Wolverton, Theresa Raglin, Todd A Stanislav, Tom Behler, Tracy Powers, Trinity Williams

**Regular Guests:** Paul Blake, William Potter, Robbie Teahen

### AGENDA

1. Review of Previous Meeting Minutes – Andy Karafa
2. Faculty-in-Residence Position & New Faculty Orientation Week – Todd Stanislav
3. Starr Building Tornado/Severe Weather Procedures – Tom Behler
4. Presentation about Nursing – Julie Coon
5. Open Forum
6. Updates from Colleges/Schools/Department

### Handouts

Tornado and Severe Weather Procedures

Tornado Shelter Diagrams for Starr Bldg.

CHP – Nursing Programs

---

1. Review of Previous Meeting Minutes
  - ❖ Minutes from 03-19-13 approved.
2. Faculty-in-Residence Position & New Faculty Orientation Week
  - ❖ Todd Stanislav let membership know FCTL will be sending out an announcement soon for a Faculty in Residence position opening to be selected via a competitive application process. Tenure or tenure-tract faculty selected is given release from their teaching load to work at FCTL and join Brooke Moore who is currently on 50% release as a Faculty-in-Residence. Todd gave overview of previous duties. ALC membership agreed that a spring 2014 opening would not unduly affect department scheduling for next year.
  - ❖ New Faculty Orientation - As colleges make decisions on new faculty additions for next year Todd reminded them to add the names to the Academic Affairs shared drive spreadsheet. Todd can then monitor numbers and plan meeting space accordingly. Meetings are scheduled throughout the year on Thursdays from 11am – 1pm so keeping that time open on teaching schedules will allow faculty to attend.
  - ❖ Faculty Week – week before classes start. Todd shared overview of the week's schedule. Monday an all faculty event is hosted with a theme of "At Our Core" building on the current focus on core values and strategic planning. Tuesday brings the Senate Retreat and the Provost's event, Wednesday is open for college/department meeting. Thursday and Friday the UCC and General Education are holding workshops. A draft will be shared in the near future.
3. Starr Building Tornado/Severe Weather Procedures
  - ❖ Tom Behler explained that when he accepted the Interim DH position for Social Sciences he also became the Building Emergency Coordinator (BEC) for the Starr Bldg first and second floors. He is a ham radio communicator and severe weather enthusiast. Since so many faculty teach in Starr it is prudent to make everyone aware of Tornado/Severe Weather Procedures and handout by this name was shared. Tornado watch and warning definitions reviewed as well as what actions to take if a warning is issued. Individuals with disabilities may need assistance – don't necessarily assist them but rather get them as close to shelter as you can and notify public safety to help. Best advice if to go to lowest interior location in

building and stay put until all clear message is received. If we experience severe weather just be aware of procedures. Building maps with safe zones indicated were distributed. It was pointed out the diagrams need updating and Mike McKay will be contacted for possible revisions.

#### 4. Nursing Program

- ❖ Julie Coon- Many recent changes in the profession. Many levels of preparation from LPM to Ph.D. FSU started in late 70s. LPN to AS program was very successful. Historical background. 83 became Assoc LPN but we had RN to BSN. One of 1<sup>st</sup> off campus programs to launch. Most popular completion program in state. Then hybrid programs began and gen ed went along. 2007 tried a fully online approach and it really took off. Now geographic programs are hard to maintain as students move into online. MSN 2005 fully online now-was hybrid. 2007 AS converted to generic BS. Some resistance to elimination of AS. Employers now will say they prefer to hire only BS level. Fully accredited. Pre and post licensure programs. Rumors that you can't get in are true but fair process is used and wait is about 2 yrs from time they qualify. 25% of seats reserved. Good retention. Biggest online program on campus. Allows for FT, PT. Trends – if they can't get job at AS they come back for BS. Retention is difficult to track since students come and go, FT and PT. MSN see handout. RN to MSN program. 2 terminal degrees – PhD research. Nurse practitioners will now be PhD levels. Nurse anesthetists holding out. Hoping to develop doctorate program in next couple of years. DNP completion folks being looked for.

Questions: Doug H. will doc program be online? Yes most likely. Clinical placement will dictate size of cohorts – maybe 20-25. Primary care nurse prac. Will be huge demand.

#### 5. Open Forum

- ❖ Shelly VandePanne requested time at the next ALC meeting to discuss MapWorks.
- ❖ Ron McKean offered to present information on Corporate and Professional Development Services.

#### 6. Updates from Colleges/Departments

- ❖ Next meeting – April 30<sup>th</sup>
- ❖ Shelly VandePanne announced there will be a May 13, 2013 training session for those interested in teaching FSUS classes. They are interested in faculty/staff who are passionate about FSU and enthusiastic about sharing with students. Session will be held from 8:30 am – 4:30 pm in the classroom near the Card Wildlife Center.
- ❖ Doug Haneline announced that a Department of Languages & Literature faculty member, Daniel Ding (Ferris faculty since 1997), has been selected as a Fulbright scholar for fall 2013. He will be going to Hungary – University of Debrecen.

Adjourn: 9:30 am
