

LIBRARY. The library was used more in July than it has been since April, and the reserve book use was higher than any month since February. A gift was received last week from Mr. Stewart Lowe, a former student, of a collection of books on the history of printing; these should be of value and interest not only to our students in printing, but also to those studying history or literature.

JOB SURVEY FINDINGS. The Big Rapids job survey, mentioned in two previous issues of the News Letter, carried out by Mr. Nicholas Sabia and Mr. Robert Sherman, under supervision of Mr. Rankin, Dean of Men, has been a success from the public relations standpoint. The following is a tabulation of the findings:

- 101 — total number of businesses interviewed
- 69 — jobs now filled by Ferris students
- 66 — new jobs located for Ferris students in Fall quarter:
 - 48 for men; 18 for women.

A wide range of pay scales was discovered, with the top at \$1.50 per hour. The Dean of Men is setting up a job record file and a list of students wanting work, which should result in better service to businessmen as well as to students.

COUNTY FAIR EXHIBIT. A study has been made of the possibility of a Ferris display at the Central Michigan Fair in Big Rapids August 21-25. As no space is available for a booth this year, it has been decided to prepare a large bulletin board to be hung in a suitable place in the main exhibit building. This board will contain photographs of the instructional and other activities of all the departments of the Institute. A committee will be named to plan a large exhibit at next year's fair as well as for certain other conventions.
