Archivist's Report  
November 15, 2010

An Archivist's poster was presented at the 2010 MHSLA conference, highlighting conferences hosted by Mid-Michigan Health Sciences Libraries. Special thanks is extended to Maureen Watson, the previous MHSLA Archivist, who created the poster template, determined the poster theme, and identified relevant pictures for the conferences highlighted within the poster.

Picture-sharing options to provide a centralized repository for pictures of importance to MHSLA is a subject that may warrant further investigation. Because some members of MHSLA may prefer not to have their photographs publicly available on the Internet, a password-protected option is suggested.

Respectfully submitted,

Alison Konieczny  
MHSLA Archivist
