The Education Committee's Primary accomplishment was planning the Annual Conference educational offerings. We met once for brainstorming and idea gathering. The next meeting was held jointly with the Conference Planning Committee to finalize the workshops and schedule for the conference. This year we are offering most workshops twice to provide greater flexibility for the participants.

The chairman of the committee attended the Board Meetings and Conference Planning Committee meeting as the representative of the committee.

MICCLE meetings were also attended by the chairman. The meetings were informative in how CEU's are awarded, and the kinds of courses being offered by various organizations in Michigan.

Ideas discussed for future conferences were using the round-table format again and having a call for papers and then a forum for MHSLA members to present papers on research done or innovative changes which improved library service.

Respectfully submitted,

Leslie M. Behm, Chair.
