EDUCATION COMMITTEE

Minutes of the January 28, 1983 meeting.

The committee met at MSU for the first time. Ideas were discussed for possible topics for the 10th Educational Conference.

If Audrey Grosch's workshop is planned for Friday the committee felt it should probably be the only item for Friday or at most one other selection in the morning and one in the afternoon.

Some of the ideas for topics were:

1. Quality Assurance (perhaps as a panel discussion give and take of experiences) (Marge Kars)
2. Differences between the various vendors and differences in databases from the vendors eg. comparison of MEDLINE from BRS, NLM and Lockheed.
3. The ethical implications of providing medical information to patients and/or relatives
4. Repeat Edna Joliffe's searching clinic on nursing literature
5. Use of statistics in marketing library to hospital administrations. (Jane Bradley)
6. Possibly A-V materials - choosing hardware. (Kathy Casteel)

Suggestion thought of for keynote or dinner speaker was someone to highlight the 10 years of conferences and the start of MHSLSA.

Another meeting has tentatively been set for March 9, 1983.

Leslie M. Behm
Chair, Education Committee
