ANNUAL REPORT - ARCHIVES

1993

The MHS LA Archives are housed at the Michigan Department of Public Health Library Resource Center and upon request materials are being retrieved and photocopied. In the past few years it has been especially valuable for those designing program brochures because it has enabled them to see what has been done in the past.

Records are sent to the Archivist throughout the year and ideally materials received should be originals which are clearly identified and dated. Non-print materials are welcomed and consist of items such as photographs, computer disks and cassettes. Photographs need to be dated and people or the event pictured should be identified. A mixture of black and white plus colored pictures is desirable. There are some gaps in the records in the early years of MHS LA so if anything looks like it could be archival material it should be sent to the Archivist.

There were no expenditures during the past year.

During this conference I hope that you will find time to view the Archivist display in the exhibit area so that you can see some of our history.

Respectfully submitted
Bill Nelton, Archivist
