Legislative Committee Report for Michigan Health Sciences Libraries Association

The legislative committee has been in the process of being structured since I was appointed to the chairmanship of the committee the first of the year.

I have interfaced this committee with the Mid-West Regional Group of the Medical Library Association (MRG/MLA) legislative committee which I serve on and I was also appointed to serve on the Committee of Michigan Library Organizations (COMLO) with the Michigan Library Association for the purpose of working on the pending legislation on the state level. With the coordination of these committees I will be able to keep the members of the Michigan Health Sciences Library Association current with the pending legislation affecting all of us.

My recommendations would be to expand the committee membership from 3 members plus chairman and ex-official members to 6 members plus chairman and ex-official members. The reason for this request is to give the committee more support and help the chairman in disseminating the needed material in forms of letters and articles for the association newsletter and input.

This has been a very exciting year and I am looking forward to an even more exciting year for 1981.
