HIRA Helps is a listing of various audiovisual services, subscription holdings and other items of interest to Health Science Librarians of Southeastern Michigan. HIRA Helps is the product of the Ad Hoc HELP Committee of HIRA, the committee members were Sharon Phillips, of Oakwood Hospital, Barbara Whitney, of William Beaumont-Troy, and Hildegard Joseph, Henry Ford Hospital.

The Committee hopes this reference tool will prove useful to its users, and anticipates future editions which will undoubtedly be expanded and improved, reflecting the growth and use of audiovisual formats in the health care field.

The format was kept simple, each institution has its own symbol. The use of the asterisk is always defined in the statement, generally it conveys that an institution is willing to interlibrary loan its collection.

A copy of the questionnaire used to gather this information is in the Appendix.
