STATEMENT OF AIMS

As President-Elect, I will perform the duties as delineated in the Bylaws. One of the duties is serving as Conference Coordinator. As such, I will work with the Local Arrangements and Education Committees to design a conference that will provide opportunities for the members to grow and be challenged in their work places. One challenge for the Conference Committee will be to provide the best conference at the most economical price.

In preparation for the office of President, I will work with the President to continue the goals and objectives of the Association. One objective I would like to pursue if it is not accomplished in the coming year, is to explore ways to find inexpensive ways for hospital libraries to connect to the Internet. If that is successful, to then explore the possibility of starting an electronic list for the Association.

STATEMENT OF AIMS

The members of the Michigan Health Sciences Libraries Association are a diverse group with a common interest in the future of health sciences libraries in Michigan. Recognizing our diversity, I would assist the Education Committee in providing a variety of educational experiences for all library staff members at many levels; and realizing our common interests, I would encourage the continuing development of our Association's purposes and vision in the areas of professional support, networking and research.

I have been a member of the Association for several years and have found this organization to be a great stimulus to my personal growth as a library professional. By serving as an officer, I hope to give back to the Association the support it has provided me, so that MHSLA can continue to provide opportunities for growth to the health sciences library community.
