FAHSLN representative to MHSLA Board		1984-87
FAHSLN chair		1985-87
ERHSLA representative to MHSLA Board		1996-98

STATEMENT OF AIMS

As President-elect, I would work to help the organization to fulfill its mission to meet the educational needs of its members; to administer the resources for biomedical libraries which are cooperatively created and maintained; and to act as an advocate for professional library services and standard. In the area of education, I would try to find innovative opportunities for the long-time professional and also provide opportunities for the para-professional and support staff in biomedical libraries in our state.

In the areas of cooperative resources, I would seek to continue our involvement with DOCLINE and encourage new cooperative ventures and networking methods.

As an advocate for health sciences libraries, I would seek to continue a dialog among not only ourselves, but with health professionals, administration organizations, NLM and multi-type library organizations to stress the importance of local libraries and librarians in the grand scheme of things.

Doreen R. Bradley

Doreen R. Bradley
Statement of Aims for Position of President-Elect
Michigan Health Sciences Libraries Association

As President-Elect, I would strive to promote health sciences librarians and libraries within the state and to provide members with opportunities for professional growth. Chairing the Conference Committee for our 1999 meeting with the Midwest Chapter would be a focal point. The Michigan Health Sciences Libraries Association is already recognized as one of the most professionally supportive groups in the Midwest, and this is an excellent opportunity to promote our association and institutions to our colleagues in the region.

Creating opportunities for professional development would also be a primary goal. As technology increasingly changes our professional environments, health sciences librarians look to MHSLA as a source for continuing education and professional growth. Two important ways to create such opportunities are by encouraging and supporting members who chair and serve on committees and by working with the conference planning committees to develop a dynamic and motivating educational program. As President-Elect, I would work toward fulfilling these goals and toward fostering more interaction between hospital, academic and special health sciences librarians in Michigan.
